

# Recognizing best practices in tree care, training, and public education

# TREE LINE USA

The Arbor Day Foundation, in cooperation with the National Association of State Foresters, recognizes public and private utilities that demonstrate practices that protect and enhance America's urban forests. The Tree Line USA® program promotes the dual goals of safe, reliable electric service and abundant, healthy trees across utility service areas.

The Tree Line USA program seeks to promote best practices in utility arboriculture and public education through five core standards:

- Quality Tree Care
- Annual Worker Training
- Tree Planting and Public Education
- Tree-based Energy Conservation Program
- Arbor Day Celebration
